EXCITING EVENTS IN TURKEY

Army and Navy a Unit for Rebellion-Message of Sublime Porte Dictates Policy He Follows.

Special Cablegram to The Star.

LONDON, August 1 .- The inner history of the revolution in Turkey is now available. It comes to The Star's correspondent by messenger from a source in which, although it cannot now be disclosed, implicit reliance can be placed.

The writer emphasizes at the outset that the events of the past few days, the importance of which cannot be exaggerated, came with as complete surprise to the acutest members of the diplomatic corps as to the sultan himself. Foreign observers are still filled with amazement at a spectacle unpara former tyrant.

The long and systematic campaign by the Young Turkey party is unequaled in modern times for its skill, its secrecy and its entire success.

The country had not the slightest suspicion that the whole of the European Turkish army had become a unit for rebellion. It was known that the navy was liberal in its sympathies.

But the navy did not count. Its hundred admirals had never been affoat, and the propellers of its three battleships were kent locked at Yildis. The army was a different mutter, It

was the only support and reliance that Abdul's autocracy possessed. The police and civil authorities were

This is what happened, according to the Star correspondent's informant:

of little account.

"The thing began at Monastir, a few days ago, when the garrison mutinied and killed their general, a palace favorite, and took their arms and equipment and the

cash that was in headquarters and went into the mountains. The sultan ordered affairs still pending under Cardinal Gotti's the troops at Salonica and Smyrna to crush the rebillion. Advised by Counselors to Temporize, American Prelate Calls Upon Papal Secretary and Cardinals Vannutelli and Gotti.

> ROME, August 1.-At the Vatican tonight it was considered certain that Pope Pius will hold a consistory either before November, when the reform of the congregations becomes effective, or in December, at the close of his jubilee year. In either instance, it is asserted, his holiness will create ten new cardinals, because the sacred college is now reduced to a membership of fifty-eight, there being twelve red hats to be bestowed. The presence of Cardinal Gibbons in

Rome, it is expected, will result in a decision being reached as to whether or not a new American cardinal will be chosen this year. Cardinal Gibbons was received in audi-

ence today by the pope. The audience lasted one hour, and the general condition of the church, particularly in the United States and South America, was discussed.

Details, however, were not taken up

at this meeting, because the pope will receive the cardinal several times during the latter's sojourn in Rome. The pontiff expressed great satisfaction alelled in history, namely, a bloodless with the condition of the church in America, as well as with the Catholic University and the mission house under the direction of Father A. After the audience Cardinal Gibbon presented the Rev. T. S. Lee, pastor of St. Matthew's Church, Washington, who has been a student at the American College here, to the pope. They conversed in Italian.

The cardinal also presented his own sec-retary, Father Louis O Donovan, and Capt. Billups and Dr. Crindall, both of Balti-

will leave a blind woman, ninety years old, as the sole survivor of a wealthy farmer's household. The probable fatal shooting of J. A. Morrill, well known as a philanthropist, was swiftly followed by the attempted murder of his housekeeper, Mrs. May Balcolm. After the shooting John Larson, the maniacal assailant, held the wounded pair sitting upright in their chairs for four awful hours with a shotgun leveled. Then, with a grim jest, he blew off his own head.

Aged Woman Spared.

The pathos of the gory drama was supplied by Morrill's aged mother, totally blind, whose life had been spared through a whim of the madman. When the final gunpowder and blood, told her that Larson was no more a menace, she groped for a quarter of a mile along a country road to the nearest dwelling, where she fainted after gasping out her message.

Larson, who had been eight years on the Morrill farm, was treated almost as a member of the family. His resentment toward Morrill is believed to have grown out of a recent disagreement resulting from drinking on the part of Larson.

A Time of Horror. The blind woman took a chair near that

of her wounded son. She realized only dimly what had happened, and her son, still conscious, dared not talk to her. Larson, too, seated himself, with the gun across his knee. He said nothing to his victims, merely muttering to himself. Thus four long hours were dragged out, the wounded pair groaning feebly at times. At the end of the fourth hour Larson said: "Well, nobody is coming to shoot me, after all. I believe I-will shoot myself.' The next instant he suited the action to

As the culmination of a quarrel last evening, it is stated, in which articles of furniture were used as weapons, Mrs. Mary Rae, forty years old, of 2801 Sherman avenue northwest dashed a quantity of carbolic acid in the face of James T. Allen, who lives at the same address.

As a result of the acid-throwing two persons were severely, though not seriously, burned.
